## **Guidance concerning use of radio equipment in Finland at short term events**

### **USAGE OF RADIO EQUIPMENT IN FINLAND**

Every user of a radio transmitter (e.g. VHF and UHF radiophones) shall have a licence granted by the Finnish Communications Regulatory Authority (FICORA). PMR 446, LA, PR 27 or CB telephones are not concerned, because their use is exempted from licencing provided that they are operating on the frequencies and with output powers according to the FICORA Regulation 15.

FICORA prescribes the frequencies to be used in the events and/or at the locations as specified in the licence. Using other frequencies than mentioned in the licence is prohibited.

### **LICENCE**

The licence is granted on the basis of an application. An application form is available on the www-site of FICORA:

[http://www.ficora.fi/attachments/englanti\\_lomakkeet/1156489299276/Files/CurrentFile/SHORTUSe.pdf](http://www.ficora.fi/attachments/englanti_lomakkeet/1156489299276/Files/CurrentFile/SHORTUSe.pdf).

An application for a licence can be sent by post, by fax (+358 9 6966 410) or by e-mail at radiotaajuudet(at)ficora.fi.

### **PERIOD OF VALIDITY**

The validity period of the licence is determined based on the information given in the application, however, the maximum period is 12 months. The licence can then be granted to cover different events for the same equipment. Locations, events and time periods shall be indicated in the application.

### **FREQUENCY FEE**

Information concerning licence fees is available at <http://www.ficora.fi/en/index/luvat/taajuusmaksut.html>.
